

TEXAS SOCIETY OF PSYCHIATRIC PHYSICIANS

*63rd Annual Convention
and Scientific Program*

November 8-10, 2019 • Moody Gardens Hotel • Galveston, Texas

G A L V E S T O N

GENERAL INFORMATION

MEETING LOCATION

The TSPP 63rd Annual Convention and Scientific Program will be held at the beautiful Moody Gardens Hotel, Seven Hope Blvd., Galveston, Texas on November 8-10, 2019.

Moody Gardens boasts diverse Galveston attractions. Educational activities include its massive pyramids, with one focused on the rain-forest and the other on ocean life. Moody Gardens also has Galveston's premier coastal golf course, 3D and 4D movie theaters, Discovery Museum, the Colonel Paddlewheel Board, Rope Course & Zip Line and seasonal Galveston Island attractions like the Festival of Lights.

HOTEL RESERVATIONS

To place a hotel reservation at the TSPP discounted room rate of \$142 **ON OR BEFORE OCTOBER 15** please visit the Federation of Texas Psychiatry's website homepage www.txpsych.org and click on the link located beside the program information for TSPP, November 8-10 or call 1-888-388-8484 and refer to the Group Name: Texas Society of Psychiatric Physicians.

MEDICAL STUDENTS/RESIDENTS/ FELLOWS IN TRAINING POSTER SESSION

Medical Students, Residents and Fellows in Training who are *members* of APA/TSPP, TSCAP or TAP have been invited to submit a poster for presentation / display during the Friday Evening Welcome Reception and Saturday Continental Breakfast and Refreshment Breaks. Make plans to attend to view the posters and meet the presenters and discuss their presentation.

SPECIAL REMINDER

Booking a room within the TSPP room block is an important way to help keep the overall meeting registration fee and costs as low as possible. Booking "outside of the TSPP block" or at another hotel could expose TSPP to monetary damages for hotel room block attrition which may then necessitate an increase in future meeting registration rates. Plus, staying in the hotel keeps you connected with all the activities and networking opportunities during the event. Please "help us help you" by booking your room at the hotel hosting the meeting and within the TSPP room block

SPECIAL EVENTS

THURSDAY – GOLF OUTING – For convention attendees, guests and golf enthusiasts arriving early, please indicate on the registration form if you are interested in playing a round of golf at 1:00 pm. Additional information about the golf play and fees will be emailed to you.

FRIDAY – TEXAS ACADEMY OF PSYCHIATRY PROGRAM – OPEN TO

ALL ATTENDEES – FREE for Texas Academy of Psychiatry Members / \$25 for TAP NON-Members. Not a member

of TAP? If you are already a member of TSPP or TSCAP you can join the Texas Academy of Psychiatry as a Member for only \$25.00 (email TSPPofc@aol.com for a TAP application to join or go online at www.txpsych.org Academy to download an application). Not interested in membership in TAP yet, you can still register and attend the TAP Program for \$25.00 Registration Fee – see registration form.

TEXAS ACADEMY OF PSYCHIATRY PROGRAM:

“ASSISTED OUTPATIENT TREATMENT (AOT): Another Option for Patient Engagement” Assisted Outpatient Treatment(AOT) has been used successfully across the nation as another option to engage patients with complex mental health needs and poor treatment adherence into ongoing mental health treatment. This presentation will discuss the legal statutes regarding out patient civil commitment in Texas. Panelists from CMHC in Fort Worth , San Antonio and Houston will discuss their experience with this intervention and some of the outcomes achieved.

FRIDAY – SPECIAL PROGRAM FOR MEDICAL STUDENTS AND RESIDENT-FELLOW MEMBERS – the RFM Section has planned a special joint workshop, 2:30-3:30 PM, FRIDAY, with the TSPP Academic Psychiatry Committee for all TSPP/TSCAP/TAP medical students and resident members on “IMPACT OF CULTURE IN PSYCHIATRIC PRACTICE”.

FRIDAY PM – UTMB DEPARTMENT OF PSYCHIATRY ALUMNI MEETING – FRIDAY. The UTMB Department of Psychiatry Alumni (formerly known as the Titus Harris Society) has scheduled a dinner on Friday 8:30 pm-10:00 pm following the TSPP Welcome Reception. For additional information and to register for the dinner, please contact Ms. Yvonne Boyington, 409-750-1937.

AWARDS

AWARDS RECEPTION / BANQUET

Saturday evening festivities begin with a complimentary wine and cheese reception for registrants attending the Awards Banquet honoring the 2019 TSPP Award Recipients for their outstanding contributions to Psychiatry. Register early to reserve a table for your group at this memorable evening!

TSPP 2019 Awards To Be Determined

TSPP 2018 Award to be Presented
(Recipient was unable to attend in 2018)

Psychiatric Excellence
Mark Kunik, MD, DFAPA
(Bellaire)

DR. SPENCER BAYLES OUTSTANDING TSPP MEMBER AWARD

This award named in memory of Dr. Spencer Bayles was established in 2010 to recognize members for outstanding and consistent participation in TSPP activities. The award will be presented during TSPP's Annual Business Luncheon on Saturday, November 9 to please plan to attend and thank your fellow colleagues for their outstanding volunteer service.

DAVID PHARIS AWARD

The Davis Pharis Award will be presented in recognition of significant contributions to safety and quality inpatient care and outcomes in State Hospitals. This year's award will be presented during the TSPP Annual Business Luncheon on Saturday, November 9. Please attend and express your appreciation to the organization selected for this degree of excellence.

FEDERATION OF TEXAS PSYCHIATRY – JOHN R BUSH LEADERSHIP EXCELLENCE AWARD

This award named for John R. Bush was established in 2016 to recognize psychiatrists who unselfishly provide outstanding leadership, over a sustained period of time, through organized psychiatry advancing the highest standards of psychiatric practice and quality psychiatric care for patients. The award will be presented during the Federation of Texas Psychiatry's luncheon on Saturday, November 9. Please plan to attend and thank your fellow colleague for her outstanding leadership through organized psychiatry.

2019 Recipient:

Debra Atkisson, MD, DFAPA
(Fort Worth)

SCIENTIFIC PROGRAM

“Working with Treatment Resistant Depression, Suicidal Patients and Alcohol and Tobacco Use Disorders”

SATURDAY, NOVEMBER 9 (6 AMA PRA CATEGORY I CREDITS™)

<p>8:15 - 8:30 am Scientific Program Opening RemarksMoody II TSPP President, Melissa Eshelman, MD, DFAPA TSPP CME Co-Chair / Moderator: Jefferson Nelson, MD, DLFAPA</p> <p>8:30 - 10:30 am Treatment Resistant Depression, Psychopharmacology and PsychotherapyMoody II Charles B. Nemeroff, MD, DLFAPA</p> <p>Professional practice gap: Treatment resistant depression is a prevalent problem with a negative societal individual impact. The condition is a leading cause of disability worldwide and results in large economic burdens for society. There are varying definitions of treatment resistant depression with differing guideline recommendations regarding pharmacotherapy and psychotherapy options. The purpose of the program is to inform the practicing clinician about the current scientific research for treatment resistant depression.</p> <p>(Refs: Johnston KM, Powell LC, Anderson IM, Szabo S, Cline S. The burden of treatment-resistant depression: A systematic review of the economic and quality of life literature. <i>J Affect Disord.</i> 2019 Jan 1;242:195-210. doi: 10.1016/j.jad.2018.06.045. Epub 2018 Jun 27. Review.van Bronswijk S, Moopen N, Beijers L, Ruhe HG, Peeters F. Effectiveness of psychotherapy for treatment-resistant depression: a meta-analysis and meta-regression. <i>Psychol Med.</i> 2018 Aug 24;1-14. doi: 10.1017/S003329171800199X.Bayes AJ, Parker GB. Comparison of guidelines for the treatment of unipolar depression: a focus on pharmacotherapy and neurostimulation. <i>Acta Psychiatr Scand.</i> 2018 Jun;137(6):459-471. doi: 10.1111/acps.12878. Epub 2018 Mar 25. Review.)</p> <p>Objectives: The learning objectives for this activity have been designed to address clinician Competence. Upon completion of this program, participants should be able to:</p> <ol style="list-style-type: none"> 1. Discuss the recommended pharmacotherapy algorithms for treatment resistant depression. 2. Discuss the role of psychotherapy in treatment resistant depression. 3. Describe when ECT or other interventions might be considered in the course of treating depression. <p>10:30 - 11:50 am Refreshment BreakMoody I</p> <p>10:50 - 11:50 am Essential Strategies for Effective Treatment of Adolescents and Young Adults with Depression, Anxiety, and SuicidalityMoody II Debra Atkisson, MD, DFAPA</p> <p>Professional practice gap: Only 41% of the 3.1 million adolescents who experienced depression last year received treatment. Suicide is the 2nd leading cause of death in adolescents and young adults. College students are increasingly seeking mental health services. There is a need for more psychiatrists with the ability to work effectively with adolescents and young adults.</p> <p>Objectives: The learning objectives for this activity have been designed to address clinician Competence. Upon conclusion of the activity participants should be able to:</p> <ol style="list-style-type: none"> 1. Identify barriers to developing a working alliance with adolescent and young adult patients. 2. Competently engage with these patients using brief psychotherapy strategies so that treatment compliance, and therefore treatment outcomes will improve. 3. Competently work with patients to accept and facilitate support from families and other support systems, such as student health centers. 	<p>11:50 - 12:10 pm Refreshment BreakMoody I</p> <p>12:00 - 1:30 pm TSPP Annual Business Meeting and LuncheonMoody I</p> <p>1:45 - 3:45 pm Treatment Resistant Depression, Current Status and Recommendations for Referral and Use of ECT, TMS, and Other ProceduresMoody II Mustafa M. Husain, MD, FAPA</p> <p>Professional practice gap: Despite advances in our understanding of depression therapy, many patients with depression remain unresponsive to treatment. As many as 50% of patients who have been treated with an antidepressant do not respond. In fact, even after 2 antidepressant trials, 30% to 40% of patients do not report significant improvement in their symptoms. The presentation will address the issues in the treatment of the remaining non-responding patients, such as non-adherence, medication substitution, psychopharmacologic augmentation, psychotherapy, somatic modalities such as ECT, VNS, rTMS, and light therapy.</p> <p>Objectives: The learning objectives for this activity have been designed to address clinician Competence. Upon completion of this program, participants should be able to:</p> <ol style="list-style-type: none"> 1. How to use a complete diagnostic examination result to guide treatment approaches. 2. Describe various treatment approaches' applications in relevant clinical situations. 3. How to make appropriate decisions in choosing various treatment approaches and its progression from one to the other. <p>3:45 - 4:05 pm Refreshment Break</p> <p>4:10 pm - 5:10 pm Alcohol Use Disorders, Engagement of Patients, Use of Medications, Harm ReductionMoody II Thomas R. Kosten, MD</p> <p>Professional practice gap: Alcohol consumption is associated with 88,000 US deaths annually. Only 1 in 6 US adults report having been asked by a medical professional about drinking. Alcohol use disorder (AUD) is present in up to 14% of US adults in a 1 year period but less than 10% of these receive treatment. 4 medications are approved by the FDA for AUD but less than 9% of those who may benefit receive a prescription.</p> <p>Objectives: The learning objectives for this activity have been designed to address clinician Competence. Upon completion of this program, participants should be able to:</p> <ol style="list-style-type: none"> 1. Participants will be able to screen for and diagnose alcohol use disorders and make appropriate referrals for specialized treatment. 2. Participants will be able to determine which medication for alcohol use disorder is most appropriate for a given patient. 3. Participants will be able to counsel patients on the risks of alcohol use that may cause harm to their health but do not meet the criteria for an alcohol use disorder. <p>4:50 pm-5:00pm Closing RemarksMoody II Jefferson Nelson, MD, DLFAPA</p>

SCIENTIFIC PROGRAM

“Working with Treatment Resistant Depression, Suicidal Patients and Alcohol and Tobacco Use Disorders”

SUNDAY, NOVEMBER 10 (3 AMA PRA CATEGORY I CREDITS™)

CME PROGRAM GOAL / TARGET AUDIENCE

This live activity has been designed in a format consisting of case study presentations, lectures and direct discussion to provide its primary target audience of Psychiatrists, as well as other specialties of medicine, with the most up-to-date, evidence-based data that can be translated into clinical practice.

Information and data will address new developments in treatments and new directions in research to address the professional practice gaps of the learners and advance the physicians' competence and effective use of targeted skills so that they may develop strategies to apply the knowledge, skills and judgement of the information presented in the educational activity into their practice.

The learning objectives for this activity have been designed to address clinician competence.

NEEDS ASSESSMENT

TSPP has incorporated into this CME activity the relevant educational needs concerning competence that underlie the professional practice gaps of our participants.

ACCREDITATION STATEMENT

The Texas Society of Psychiatric Physicians is accredited by the Texas Medical Association to provide continuing medical education for physicians.

CREDIT STATEMENT

The Texas Society of Psychiatric Physicians designates this Live Activity for a maximum of nine (9) *AMA PRA Category I Credit*™. Physicians should claim only the credit commensurate with the extent of their participation in this activity.

ETHICS DESIGNATION STATEMENT

The presentation entitled “**Working with Suicidal Patients, Ethical Dilemmas and Practical Considerations**” has been designated by the Texas Society of Psychiatric Physicians for two (2) hours of education in medical ethics and/or professional responsibility.

FACULTY AND PLANNERS DISCLOSURE POLICY

The Texas Society of Psychiatric Physicians will disclose to participants the existence of any relevant financial relationships between faculty members, TSPP staff and members, who planned, authored, contributed to, and/or reviewed the content of this activity, and any commercial interest discussed in this educational activity. Disclosure will occur through written communication in the syllabus / handout material.

8:00 - 10:30 am **Continental Breakfast for Scientific Program Registrants**Moody II

8:15 am -8:30 am **Opening Remarks**Moody II
TSPP Melissa Eshelman, MD, DFAPA
TSPP CME Co Chair / Moderator:
Jefferson Nelson, MD, DLFAPA

8:30 am – 9:30 am **Facilitating Tobacco Cessation in Patients with Mental Illness**Moody II
Alison R. Jones, MD, FAPA

Professional practice gap: Rates of smoking are higher in patients with mental illness compared to the general population resulting in increased morbidity and mortality. Relapse rates are also higher following smoking cessation. Clinicians are often unprepared to work with patients on smoking cessation and may have concerns about potentially negative effects of medications for smoking cessation. Improving rates of smoking cessation in the mentally ill would have a major individual and public health benefit.

(References: Anthenelli RM, Benowitz NL, West R, St Aubin L, McRae T, Lawrence D, Ascher J, Russ C, Krishen A, Evins AE. Neuropsychiatric safety and efficacy of varenicline, bupropion, and nicotine patch in smokers with and without psychiatric disorders (EAGLES): a double-blind, randomised, placebo-controlled clinical trial. *Lancet*. 2016 Jun 18;387(10037):2507-20. doi: 10.1016/S0140-6736(16)30272-0. and Tidey JW, Miller ME. Smoking cessation and reduction in people with chronic mental illness. *BMJ*. 2015 Sep 21;351:h4065. doi: 10.1136/bmj.h4065.)

Objectives: The learning objectives for this activity have been designed to address clinician Competence. Upon completion of this program, participants should be able to:
1. Describe risks and benefits of medications to improve rates of smoking cessation.
2. List the stages of change involved in behavior change.
3. Employ motivational interviewing techniques to enhance smoking cessation rates.

9:30 am – 9:45 am **Refreshment Break** South Ballroom Foyer

950 am-1150 am **ETHICS: Working with Suicidal Patients, Ethical Dilemmas and Practical Considerations**Moody II
Constance E. George, MD,
Case Presentation + Discussant
Melissa Deuter, MD, Discussant
Sheila M. LoboPrabhu, MD, DFAPA, Discussant

Professional practice gap: Suicide rates in the US are increasing, especially in adolescents, young adults and middle aged persons. Suicide is a frequent cause of malpractice claims against psychiatrists but current suicide prediction models have little predictive value. Psychiatrists face ethical dilemmas treating suicidal patients.

Objectives: The learning objectives for this activity have been designed to address clinician Competence. Upon completion of this program, participants should be able to:
1. Identify key ethical questions that arise in working with different patients at risk for suicide.
2. Identify strategies to address these ethical questions in specific patients, with differing illnesses, social supports, etc.
3. Identify and develop professional supports in the event a patient in the psychiatrist's care completes suicide.

11:50 - 12:00 pm **Closing Remarks**Moody II
Jefferson Nelson, MD, DLFAPA
