CME PROGRAM GOAL/TARGET AUDIENCE

This live activity has been designed in a lecture format with case examples and panel format followed by an interactive audience question and answer period to provide its' primary target audience of Psychiatrists, as well as other specialties of medicine, with the most up-to-date, evidence-based data that can be translated into clinical practice.

The information and data presented will address the professional practice gaps of the learners and advance the physician's competence and improve their knowledge of potential pharmacotherapies for the treatment of addictions; recognize ethical, policy and legal considerations in their practice; explore risk management and liability exposures with patients and identify risk mitigation strategies in order to promote the best interests of their patients, and foster cooperation of all who are concerned with mental health and treatment so that they may develop strategies to apply the knowledge, skills and judgement of the information presented in the educational activity into their practice.

NEEDS ASSESSMENT

TSPP identified professional practice gaps in medical literature and incorporated this into the CME activity to address the relevant educational needs concerning competence that underlie the professional practice gaps of the participants.
